2014 CFPB annual employee survey

Consumer Financial
Protection Bureau

December 2014

Introduction

Interpretation of results

More than 83 percent of the CFPB employee population responded to the third annual employee survey conducted by the Consumer Financial Protection Bureau (CFPB) between July 15, 2014 and August 15, 2014.

Bureau leaders use feedback from tools like the annual employee survey to develop strategies to better serve employee needs. Survey results are shared across the organization to encourage leaders to actively seek and respond to opportunities to improve the employee work experience.

The 2014 survey results reveal that the majority of employees identify strongly with the CFPB mission, among other strengths. Of 75 questions included in the survey, employees responded favorably (65 percent or higher agree/satisfied or strongly agree/very satisfied) to 38 items. In the 2014 survey results, 4 items were identified as challenges with percent unfavorable (percent of respondents who disagree/strong disagree or are dissatisfied/very dissatisfied) results greater than 35%.

CFPB continues to develop as an organization and is actively leveraging employee feedback to inform organizational goals and activity. The Bureau has established a robust process to respond to the areas of improvement identified through the survey. CFPB is collaborating with the National Treasury Employees Union (NTEU) to design and implement tailored interventions at all levels of the organization.

How the survey was conducted

The survey was conducted online from July 15, 2014, to August 15, 2014.

Survey items and response choices

See Tables 1 through 16 on the following pages for information on the number and percentage of survey respondents selecting each response scale choice. Tables are organized into content areas representing perceptions of the following:

- My work experience;
- My agency;
- My supervisor;
- Leadership;
- Rewards and recognition: Work unit;
- Rewards and recognition: Agency;
- Diversity and inclusion; and
- Overall satisfaction.

In each content area, the number of respondents (frequencies) and percentage of respondents selecting each response scale choice are provided separately. Tables are presented so that the first table shows the frequency or number of respondents who selected each response scale choice. The first table, therefore, also shows the total number of respondents for each item¹. The percentage of respondents for each item and response scale choice² is shown in the second table.

Description of sample

All 1,372 full time equivalent agency employees on board as of July 1, 2014 were surveyed.

¹ Survey respondents were informed that “responses to this survey are voluntary and there is no penalty if you choose not to respond.”

² Some items included an option for survey respondents to select “Do Not Know” or “No Basis to Judge.” These items are noted in Tables 1 to 16. The number of respondents who selected “Do Not Know” or “No Basis to Judge” is not included in calculating percentages.

Number of employees surveyed, number who responded, and representativeness of respondents

Of the 1,372 employees surveyed, 1,145 responded, for an 83.5% response rate. These respondents are representative of the population. Demographic information (percent representation) for survey respondents compared to CFPB population statistics is presented in Tables 17 through 21.

2014 Annual employee survey results for Consumer Financial Protection Bureau all respondents
