## INTRODUCTION

### Schedule Overview

Forest Management Assistance

### Additional Background Information

The United States Forest Service provides forest management assistance for individual landowner's ensuring the landowner's objectives and the public need for goods and services from non- Federal forest lands are met for present and in the future. Records will cover technical assistance provided to private land-owners, including multiple-use management plans, timber, wildlife, range, watersheds and soil issues.

### Overall Recommendation

I recommend approval of the attached schedule.

## APPRAISAL

### Item 0001: Forest Management Assistance Program

**Proposed Disposition:** Temporary

**Appropriateness of Proposed Disposition:** Appropriate

#### Appraisal Justification:

- \* Previously approved as temporary. (N1-095-10-004 / 286; N1-095-10-004 / 287;)
- \* Has little or no research value. The records are administrative in nature and do not warrant permanent retention once the business needs of the agency have been met.
- \* Does not document significant actions of Federal officials.

**Adequacy of Proposed Retention Period:** Adequate from the standpoint of legal rights and accountability

**Media Neutrality:** Approved
