**INTRODUCTION**

**Schedule Overview**

Recreation, Wilderness, and Related Resource Management

**Additional Background Information**

The goal of Recreation, Heritage, Wilderness, and Wild and Scenic Rivers Management is to provide social, economic, and environmental benefits to individuals, families, and communities while preserving and protecting the character for which Recreation, Heritage, Wilderness, and Wild and Scenic River Resources are valued or established. Effective management of Recreation, Heritage, Wilderness, and Wild and Scenic Rivers enhances the experience of the beauty, integrity, ecology, and cultural qualities of places where people recreate in the National Forest System, thereby promoting their physical, mental, and spiritual well-being; their social connectivity and identity; and community vitality for present and future generations.

This records schedule consolidates and updates previously approved records schedule items related to general policy and procedures of the Recreation, Heritage, Wilderness and Wild and Scenic Rivers Management program.
