I am seeking information from the Federal Communications Commission (FCC) regarding complaints received about "Black Lives Matter" and BLM. I have attached a list of tracking numbers to this request, which correspond to the complaints submitted to the FCC. I am specifically interested in obtaining the details of these complaints, including the name of the complainant, the date of the complaint, and any other relevant information. I am also interested in obtaining any related documents, such as letters and emails, that the FCC has received or generated in response to these complaints.

I would also like to request information regarding any governmental actions that the FCC has taken in response to these complaints.

If there are any fees associated with fulfilling this request, I would be grateful if you could provide an estimate in advance. I would prefer the request to be fulfilled electronically, by email attachment if available or CD-ROM, but I am open to other formats as well. Please let me know if any changes are necessary.

Thank you for your time and attention to this matter.

Sincerely,

[Your Name]

The FOIA request is meant to understand efforts made by the Federal Communications Commission to advise the civilian law enforcement agencies and other government agencies as to whether certain electronic signals are subject to legal constraints, such as the Department of Justice, Department of Homeland Security on the need for anticipating reuse of components in any military applications, or the National Aeronautics and Space Administration (NASA) and the Department of Energy. The request was submitted on January 18, 2017, to the FCC for any records available from the FCC since January 18, 2017 related to the following information:

- Any communications the FCC had with the FBI related to the DDoS attack alleged in May
- Communications the FCC had with the National Counterterrorism Center (NCTC) related to the DDoS attack
- Any communications the FCC had with the Department of Homeland Security related to the DDoS attack
- Any communications the FCC had with the Department of Justice related to the DDoS attack
- Any communications the FCC had with any other government agency related to the DDoS attack

The request was made under the Freedom of Information Act and seeks any records available from the FCC since January 18, 2017 related to the DDoS attack alleged in May. The request also seeks any records related to communications between the FCC and the FBI, NCTC, Department of Homeland Security, Department of Justice, and any other government agency related to the DDoS attack. The request was submitted to the FCC on January 18, 2017, and the response was due within 20 business days, as the statute requires.

This FOIA request is meant to understand efforts made by the Federal Communications Commission to advise the civilian law enforcement agencies and other government agencies as to whether certain electronic signals are subject to legal constraints, such as the Department of Justice, Department of Homeland Security on the need for anticipating reuse of components in any military applications, or the National Aeronautics and Space Administration (NASA) and the Department of Energy. The request was submitted on January 18, 2017, to the FCC for any records available from the FCC since January 18, 2017 related to the following information:

- Any communications the FCC had with the FBI related to the DDoS attack alleged in May
- Communications the FCC had with the National Counterterrorism Center (NCTC) related to the DDoS attack
- Any communications the FCC had with the Department of Homeland Security related to the DDoS attack
- Any communications the FCC had with the Department of Justice related to the DDoS attack
- Any communications the FCC had with any other government agency related to the DDoS attack

The request was made under the Freedom of Information Act and seeks any records available from the FCC since January 18, 2017 related to the DDoS attack alleged in May. The request also seeks any records related to communications between the FCC and the FBI, NCTC, Department of Homeland Security, Department of Justice, and any other government agency related to the DDoS attack. The request was submitted to the FCC on January 18, 2017, and the response was due within 20 business days, as the statute requires.
